| <input type="checkbox"/> Bone Grafting | <input type="checkbox"/> Apicoectomy/Retrofill | <input type="checkbox"/> Alveoloplasty |
| <input type="checkbox"/> Orthognathic Surgery | <input type="checkbox"/> Hyperplastic Tissue Removal | <input type="checkbox"/> Tori Removal |
| <input type="checkbox"/> Expose and Bond | <input type="checkbox"/> Incision and Drainage | <input type="checkbox"/> Frénectomy |

Anesthetic Requested: Local General N₂O₂/O₂

Special Instructions: _____

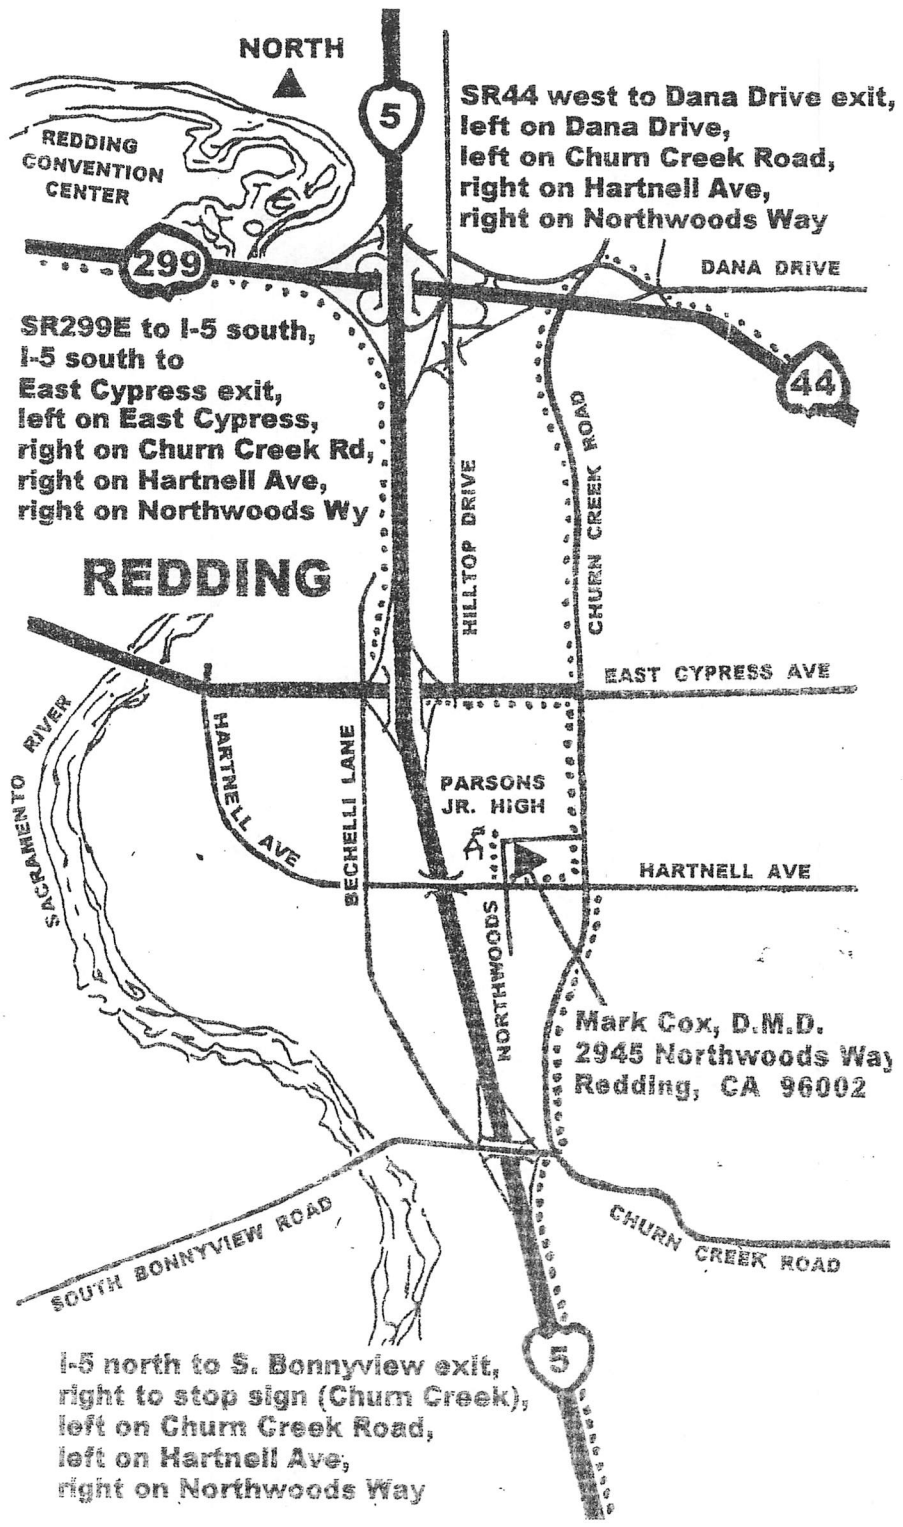

Those anticipating **General Anesthesia** must:

1. Not have anything to eat or drink (not even water) for at least eight hours prior to surgery. TO DO OTHERWISE MAY BE LIFE-THREATENING! However it is important that you take any scheduled medications (high blood pressure, antibiotics, etc.) or any prescription needed for premedication, using only a small sip of water.
2. Arrange to have a responsible adult with you to drive you home and care for you after surgery. They are to remain on the premises during your procedure.
3. Not consume alcoholic beverages or smoke for 24 hours prior to surgery.
4. Wear a short-sleeved shirt and comfortable walking shoes.
5. Not operate a motor vehicle for 24 hours following the anesthetic.

Because of the serious nature of General Anesthesia, failure to comply with these instructions may require your appointment to be cancelled or rescheduled.

If under 18 years old, you must be accompanied by a parent or legal guardian.

Please Contact our office with any questions.
